2022/23 Academic Year report - Career Outcome rates

Each semester the Babb Center for Career Services department tracks career outcomes rate for graduates utilizing the NACE First Destination survey. The table below summarizes the Primary Status data.

Timing - For capture purposes, we include summer II (August graduates) into the data for the interim fall report. Spring graduates are included in the final academic year report, usually completed around December/January.

Career Outcomes rate is the percentage of graduates (Associates/Bachelors/Masters) who are in one of the following categories minus those still seeking employment (SE), in the 6 months after graduation. The definition ***excludes*** those with no known data (NO = 178) or not seeking employment (NS = 13):

- Employed full time (FT) > 30 hours week
- Employed part time (PT) < less than 30 hours per week
- Enrolled in a program of continuing education (CE)
- Serving in the U.S. Armed forces (MI)
- Participating in a program of voluntary service (VU)

Notes:

1. Data collection is through a range of sources including surveys when students collect diplomas and pre-graduation Alumni events, information provided by faculty, family and colleagues, searches on LinkedIn, Facebook, and other social media.
2. Timing: data is collected from posting of degrees by Records Office to 6 months after graduation date.
3. The definitions of Primary Status follow National Association Colleges and Employers (NACE) guidelines. https://naceweb.org/job-market/graduate-outcomes/first-destination/standards-and-protocols/

4. Knowledge Rate: this is the percentage of graduates we have reasonable and verifiable information on their first destination, postgraduate career activities. The target minimum percentage recommended by NACE is 65%; total for AY 2022/23 is 87.0%
