Please provide any additional information about or descriptions of the supervised clinical experiences:

Candidates are placed in supervised field placement from the beginning of the program. This culminates in the internship experience. Placement decisions are based on attempts to provide high-quality clinical experiences that are in the candidate's best interest, the university supervisor, the mentor teacher, the K-12 partner schools, and the UAFS School of Education. For internship placement candidates may request schools where they prefer to spend most of their time during this capstone experience if located in the university's designated service area. The Coordinator of Teacher Licensure and Field Placement collaborates with K-12 administrators to co-select the placement for each intern. They consider the candidate's prior experiences and placements when deciding. Other factors may also be considered when making placement decisions, such as the level of school support that can be provided, the programs in place at the school, the training of staff at the school, and the importance of learning how to work effectively with students from a variety of backgrounds. Therefore, a candidate is not guaranteed to receive the placement of choice. UAFS follows the Arkansas Department of Education policies when making decisions about placements.

Enrollment and Program Completers

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

1. Teacher candidates create lessons dealing with diversity and incorporate these lessons in teaching scenarios. 2. Candidates are placed and have experiences in a variety of settings with diverse populations, including socio-economic, special needs, ethnicity, and limited English proficiency, prior to their internship experience. 3. All courses in the curriculum specifically address diversity, which is reflected in faculty syllabi and on assessments at college and university levels. 4. Candidates are assessed regarding the implementation of appropriate teaching strategies for diverse students. Assessment is based upon the achievement of P-12 students resulting from candidate instruction. Data suggest that candidates do address diversity positively and incorporate it in lessons. 5. Students are placed in diverse classrooms and provided an opportunity to work with limited English proficient students under the guidance of a mentor teacher. 6. The SOE implemented the Danielson Framework for Teaching and all candidates are trained in the

effective teaching criteria. Public schools in Arkansas are required to use the Danielson Framework as the teacher evaluation system. It is also used as the model for the mentoring for first-year teachers in Arkansas. By implementing this framework at UAFS, all teacher education graduates hired into the Arkansas public school system will be cognizant of the mentoring and evaluation system used by the district. Administrators are pleased with the continuity of the preparation. 8. The School of Education has created a Recruitment Plan in an effort to strategize efforts to recruit a more diverse population of candidates. 9. In an effort to address teacher shortages, the School of Education has partnered with an area school to implement a paid teacher apprenticeship. 10. Members of the School of Education faculty serve on a minority recruitment committee with our largest partner.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

The goal for graduating mathematics candidates in 2021-22 is 6. We will continue to recruit and offer support to candidates seeking licensure in the area of mathematics.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

The SOE at the University of Arkansas Fort Smith prepared 3 candidates for the field of mathematics. 1. Students often struggle to pass the math praxis required for licensure. Thankfully, the Department of Elementary and Secondary Education has implemented tutoring sessions for students that include 240 Tutoring. Our students are encouraged to use this resource to help them pass the exam.

6. Provide any additional comments, exceptions and explanations below:

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

 Yes

 No

- b. use technology effectively to collect data to improve teaching and learning

 Yes

 No

- c. use technology effectively to manage data to improve teaching and learning

 Yes

 No

- d. use technology effectively to analyze data to improve teaching and learning

 Yes

 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

1. The School of Education at University of Arkansas Fort Smith is embedding an online endorsement component in initial teacher preparation programs. Candidates will be required to demonstrate the ability to plan a complete unit to be delivered in an online format. 2. Candidates videotape themselves teaching a lesson in the public school classroom. They watch the video and complete a self-evaluation. The instructor gives the candidate formative feedback. 3. Most education faculty completed a course in Full-Online, Hybrid or Web-enhanced technology. 4. Every syllabus must show through an assessment how technology is being embedded and specifically used. 5. All education candidates complete a course in educational technology that requires them to plan activities that require K-12 students to use technology in their own learning. Candidates are introduced to the InACOL Standards in the course. A major unit assessment is completed in the course and it is aligned with the InACOL Standards. 6. Student teaching interns complete a technology project that requires them to construct lessons in which K-12 students use technology to enhance their own learning. 7. Candidates use the LiveText electronic portfolio system throughout the program to collect artifacts, complete pre and posting testing, and analyze assessment results.

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Candidates in the School of Education at UAFS are required to create and implement lessons that include specific narrative about how they are meeting the needs of diverse students including those with disabilities. Candidates create or are provided a class profile which they must use in planning and instruction to ensure they meet the needs of all students. Candidates are required to take courses in special education where they complete case studies that increase their knowledge of working with students with disabilities. During internship candidates are placed in classrooms where they work closely with classroom teachers to provide appropriate instruction for all students. Candidates are evaluated at each level on their ability to effectively work with these students.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Candidates participate in mock IEP meetings during their Special Education courses. They are expected to demonstrate knowledge of the role of the teacher in this type of meeting. During Internship, candidates participate in IEP meetings as the classroom teacher does.

c. Effectively teach students who are limited English proficient.

Each pedagogy course in the School of Education includes discussion and/or assignments on working with limited English proficient students. Throughout the program candidates are placed in a range of diverse placements where they are expected to work with students who have limited English proficiency. These experiences, under the direction of a mentor teacher, are excellent opportunities for candidates to practice strategies for teaching these students.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

c. Effectively teach students who are limited English proficient.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

UAFS reorganized and moved from five colleges to three in the summer of 2021. The School of Education is now housed in the College of Health, Education, and Human Sciences (CHEHS), under the leadership of the Dean of CHEHS. The Executive Director of the School of Education is charged with leading the School of Education and reports to the Dean of CHEHS. The secondary education programs are housed in the College of Arts and Sciences. The School of Education also offers a 3-4 endorsement for those who have a K-6 teaching license. The School of Education embraced the Professional Development School Model in 2014 and began a partnership with one school district. The School of Education continues to expand partnerships and has embedded courses in area K-8 schools for Elementary and Middle-level programs. UAFS is located in a culturally diverse area, which presents both challenges and successes. Poverty is also a major challenge for both our K-12 students, and for our candidates who come from low socio-economic backgrounds. Many of our candidates struggle financially; yet, they realize education is the key to a better life. Education is the great "equalizer." Our candidates have multiple experiences working with students from diverse backgrounds. Those experiences prepare them to be effective educators. The School of Education had a CAEP accreditation visit in the Spring of 2017 and was awarded accreditation with no areas for improvement in the Fall of 2017.
